(323) 850-1020

Miss Jennifer Downey, WST-3
U.S. Environmental Protection Agency—Region 9
75 Hawthorne Street
San Francisco, CA 94105

February 16, 2011

Dear Miss Downey:

Attached please find the following information:

1. Photographs of the hazardous waste at our facility. These photographs were taken on February 1, 2011.
2. The above photographs show the hazardous waste at our facility at the time they were taken.
3. They also show the accumulation start time.
4. They also show the area around the waste has adequate isle space around the waste.
5. The containers are not leaking and are compatible with the waste stored inside.
6. Manifests for the wastes that have been removed over the last 6 months.
7. Training log for the employees that handle the wastes.

We did not realize that these photographs need to be taken every month. In the future, they will be taken at the beginning of the month.

Please review the above items and let us know if there is any further information that you require for us to show compliance with the previous order that we received.

Thank you for your help and cooperation.

Sincerely,

Max Faeth, President
Highland Plating Company
